

Massage for Nursing Moms

**Post-Natal Massage (\$70)
60 min.**

Nursing can be one of the most rewarding relationships a mother and child can have. However, along with the reward comes the demands on your time and energy. This massage solves these problems by having your baby right there with you on the massage table. Through side-lying massage, we accomplish the same goals as traditional massage- to soothe sore muscles and help you relax.

For your comfort, this massage is available exclusively with the director of Oasis Day Spa, a mom of three who has nursed all her children and is familiar with the unique needs of nursing moms. Should your baby need attention, you are right there and able to nurse and comfort them.
